

# STATE BAR OF TEXAS

## Department of Research and Analysis

### Private Practitioner Attorney Population by County Density Report: 2004-05

This report shows the concentration of active attorneys licensed by the State Bar of Texas who report a primary occupation of private practitioner. Data are reported for all Texas counties as of Bar fiscal year 2004-05. This concentration is expressed as a ratio of private practitioner attorneys to the general population. It is also shown as a percent of total in-state private practitioner bar membership. For context, the county population is given both as a number and as a percent of the total Texas population.

	State Bar of Texas Private Practitioners <sup>1</sup> (12-30-04)	Texas Population <sup>2</sup> (07-01-04)	Ratio of Private Practitioners to Population	County Private Practitioners as a Percent of Total In-State Private Practitioners <sup>3</sup>	County Population as a Percent of Total Texas Population <sup>3</sup>

### Footnotes

<sup>1</sup> Attorney population data is from the State Bar of Texas membership database and is current as of December 30th, 2004. All data represent active attorney bar members in good standing. Bar geography, such as county membership and various district memberships, is based on members' official address. Starting in 2003, bar members' official address is defined by work address; where work address is unavailable, home address is used. Also note the following:

- a. 59 private practitioners have missing or unreported official address information and are not included in this profile.
- b. 3,231 private practitioners have out-of-state official addresses and are therefore categorized as out-of-state.

<sup>2</sup> The 2004 general population data is from the U.S. Census Bureau Population Estimates Program accessed via American Factfinder. Source: U.S. Census Bureau; 2004 Population Estimates; using American Factfinder; <<http://factfinder.census.gov/>>; (22 September 2005)

<sup>3</sup> Percents may not sum to one hundred percent due to rounding.
